

Oscoda County District Library Snow Removal

Oscoda County District Library employees are tasked with snow and ice removal from sidewalks, emergency exits, and any bilco (barn) doors at all locations of the Library when there is more than one inch of snow and any ice accumulation. Employees will create a snow removal schedule, and are expected to adhere to it. Employees may provide a note from their primary care physician if they are unable to either run the snow blower or shovel snow, and will be excused.
